Through the Spotting Scope

NVFAC President's Report

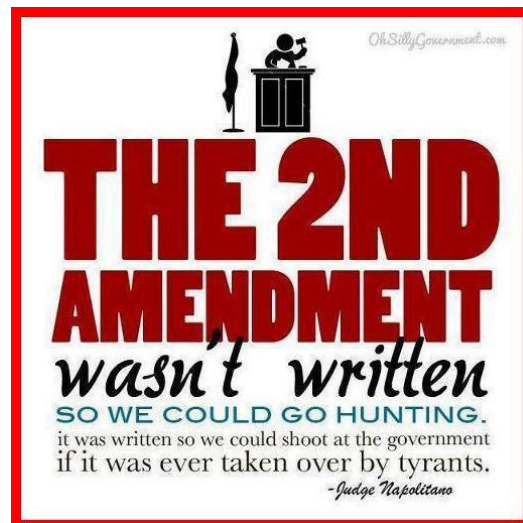

NVFAC continues to move forward on several fronts. The tragic ambush of the two policemen in Vegas and the death of the citizen who was trying to stop the shooters from doing further harm has been the center of attention for the last week. NVFAC donated money to the officers and to the citizen's family. This was certainly a needless and hateful shooting. The shooter was a prohibited possessor and the shooter and wife hated the police.

© The NRA did a mailing to Nevada NRA members requesting they join the NVFAC as the state association for Nevada. The response was very positive

and many new members joined. Our PAC continues to grow and candidate surveys have been sent out. Check out www.nvfacpac.org to keep current with those activities. We are finalizing the Patriot Gun drawing for this cycle, so if you haven't gotten a chance, please contact Randy Mackie at randy@nvfac.org.

© We have selected May 2015 as our first signature shoot. If you live in the Vegas area and want to help us out with this event, please contact us as we are setting up the event team soon. We continue to attend gun shows and our Range & Retail Division is distributing the BE AWARE materials. Please check out all these activities in this issue of The Firing Line as well as our two Facebook pages, NVFAC and NVFACPAC, as well as the articles that we post on the web page. Have a great summer vacation and travel safe!

For Freedom

- **Includes a hard case and 500 rounds of .223 ammunition.**

FEATURES:

- ▶ 16" LW-15 Complete Rifle Specifications
- ▶ 16" MATCH GRADE M4 profile stainless steel barrel (Black Finish)
- ▶ Multi-Cal (shoots both 5.56 NATO/.223)
- ▶ 1x8 Twist with 3 groove polygonal rifling and M4 Feed Ramp
- ▶ 1/2x28 threads/.750" diameter gas block/YHM front flip-up sight/gas block combo

- ▶ A3 Upper Receiver forged from 7075-T6 aluminum with extended M4 feed ramps and "T" markings
- ▶ Chrome lined MIL-SPEC bolt carrier group ISO 9001:2000 certified
- ▶ B5 Systems Keymod Handguard
- ▶ MAGPUL MBUS rear flip-up sight
- ▶ New Frontier Armory LW-15 polymer lower receiver
- ▶ Quality US-made lower parts and commercial stock assembly

Only 1,000 tickets are being sold at \$10.00 for a great chance to win this custom-built AR-15 and ammo. All proceeds go to support the Nevada Firearms Coalition activities and YOUR gun rights!

The winner will be announced on the NVFAC web site and via e-mail to NVFAC members. The winner need not be present to win, but the winner must pay for the NICS background check, comply with all federal, state, and local laws, and must pick up the firearm from a federally licensed firearms dealer. Out-of-state winners pay for shipping and both ends of the FFL transfer fee. If a winner does not qualify under federal, state, or local law for the possession of this rifle, their ticket is invalid and a new winner will be drawn.

Send money order for \$10.00 per ticket payable to Nevada Firearms Coalition to the address below. Include your telephone number, address, and e-mail so we may contact you should you

win. When we receive your money order and info, we will complete the tickets stubs for you, e-mail you a PDF of the tickets, and put your completed stubs in the drawing drum.

The last date to receive USPS mail ticket requests is Monday, 30 June 2014, to allow processing time for entries before the drawing at Noon on Friday, the Fourth of July, 2014.

Contact info for by-mail ticket sales:

In the Crosshairs In the Crosshairs In the Crosshairs

The primary elections are behind us, and now it's on to the general election in November. This is an off-year election, so turn-out is expected to be significantly smaller than in Presidential election years. Remember to vote your Second Amendment rights! Encourage your like-minded family and friends to do the same!

Register to vote, and VOTE!

You can't vote if you're not registered! Your voting may also be delayed or complicated if you have moved since you last voted and your voter registration file was not updated. To help with that, following is some important information and dates to keep in mind this election season.

2014 General Election Dates to Remember:

- Close of Voter Registration: October 14, 2014
- Early Voting Period: October 18 to October 31, 2014
- Election Day: November 4, 2014

Watch your e-mail and our web site for NVFAC candidate ratings before early voting begins for the general election.

YOU CAN HELP in the fight to protect your gun rights!

We need money and votes to have the influence we need to protect our gun rights. It's the votes that count the most, but money helps us to get them out on election day, helps us support the election of pro-gun legislators,

and helps us defeat anti-gun rights politicians. Donate to the NVFAC-PAC in any amount you can afford and encourage your like-minded friends, family and neighbors to do the same. No amount is too small because it all adds up and it all helps the cause! Contributions to the NVFAC-PAC are NOT tax-deductible.

Update Your Liberty Trees! We also need engaged and informed gun owners to write, e-mail, call and visit their elected representatives and let them know what they think about issues facing Nevada's gun owners. Update or start a Liberty Tree, which is an e-mailing list of concerned citizens willing to spread the word about gun issues to fellow patriots. Then forward legislative and electoral alerts from NVFAC and the NVFAC-PAC on to those lists to generate the grass-roots action that gets the attention of your elected representatives.

In the 2013 Nevada legislative session, our grass-roots action enabled us to stop every anti-gun bill that came up, and to pass several pro-gun bills. That would not have occurred without the prompt, diligent, and dedicated action of Nevada's gun owners! By creating a Liberty Tree, or updating and expanding your existing Trees, you can make an invaluable contribution to protecting the rights we all hold dear!

*Duncan Rand Mackie
Vice-President,
NVFAC Legislative Division*

Around the Range Around the Range Around the Range

Northern Nevada Report

Northern Nevada has been hurt by the long inactivity of the then NRA Association the Nevada State Rifle and Pistol Association (NSRPA). My wife and I were both life members of the NSRPA. The NSRPA IS no longer the Nevada State Association for the National Rifle Association. It is not a debatable issue. The Nevada Firearms Coalition (NVFAC) is the Official Nevada NRA State Association. I want to make it perfectly clear, my main interest is building the membership of the NVFAC. I have no other self-interest. My wife has joined with me in this endeavor and is a member. She is also a NRA Life Member.

At this time, I'm not interested in the gun control debate, sell out politics, do-nothing sunshine patriots. Actually, I'm more interested in our First Amendment rights, especially our right to peaceable assembly and free speech. If you believe as I do that our basic right to own firearms is at risk, I ask you to JOIN the Nevada

Firearms Coalition. If we are to succeed as an effective group supporting our firearm rights, we need to build membership. WE need members. We have signed up members, but we are only getting started in Northern Nevada.

I want to thank the National Rifle Association for stepping up to the plate in supporting the NVFAC. All freedom loving Nevadans should be in deep appreciation for their support and leadership.

Lord willing, I will be at the Crossroads and Big Reno gun shows in Reno in the next couple of months. Both shows have given us free complimentary tables. Thank them for standing with us! We have nothing to sell, but the protection of our God Given liberties. Check for show dates and come visit us!

Become a Member of the NVFAC. We need you!

Miles Ugarkovich
Director, Northern Nevada

PAC News PAC News PAC News

The Political Action Committee is growing strong! We have more than tripled our Facebook followers and are continuing to gain support. If you haven't "Liked" the PAC on Facebook, please visit <https://www.facebook.com/NVFirearmsPAC> and join us. We post different messages than the NVFAC Facebook Page.

We're also continuing to grow our fundraising network. If you haven't joined the Caliber Club, please consider a monthly contribution to help us fund our

political activities year round. Our PAC will be working in this election and making sure we continue to have a lobbyist in Carson City next year. Your contributions are essential as we stand up to the gun control carpet baggers who will be funding our opponents campaigns to try to pass anti-gun legislation in Carson City.

Modern Spartan Systems embraces the Nevada Firearms Coalition

When people hear the title of Spartan, they think of toughness, honor and success in battle. We chose the name Modern Spartan Systems because we wanted people to appropriately associate that toughness, honor and success with our company and products. What we have found is that the Spartan “warrior spirit” resonates, not just with us and how we want to run our business, but with most of the people involved in the firearms industry.

In this industry we see and meet spirited people in their “right” mind and on the “right” side of important issues all the time. Being of the same “cut”, as we have learned what the Nevada Firearms Coalition is all about, we have come to develop a kinship type respect for your organization and are happy to be working with and supporting you.

We do want to sell you our products, but we also want you to know that in a “larger picture” way, we are selling to our big, extended family; and family does right by each other. Everything we state and claim about what we produce (and we make BIG claims) is true and accurate. We are not just a marketing company hyping up standard chemistry; our specialty cleaners and lubricants are different, significantly better and have “real world” benefits that will contribute to your shooting success! In other words, we feel great about what we are selling to you on a personal level!

Now to get you excited about our proprietary products, we will share with you our BIG claims. When you follow our protocol and use our specialty cleaners and lubricants as a “SYSTEM”, you will experience better ACCURACY, RELIABILITY and overall firearm PERFORMANCE.

Let’s break down what this means. Firearms are machines. To get them to perform optimally, they must be contaminant-free and minimize friction. In “gun world” the mere act of shooting ads contaminants (carbon, copper, lead...), causes friction, and causes wear. Our technology is the antidote in combating these problems.

We can help you to optimize your “machine”. We are great at removing contaminants. Use our Copper/Lead Destroyer™ if you have copper or lead build up.

It works fast and effectively. Then use our Carbon Destroyer™ for carbon. It is so powerful that it will remove Cosmoline, but water-based, gentle and safe on all metals. Most people say that it is the best carbon cleaner that they have ever used!

All of our American made products are safe to work with, safe for the environment, and nose friendly. You don’t want to drink the stuff, but we don’t use “hazmat, cancer causing, hideous smelling, get you kicked out of the house” chemistry.

Now that the contaminants are removed and the pores are opened up, we get to do a Dick Butkis tackle of friction. Our “lubricant”, Accuracy Oil™, is actually a one-of-a-kind metal conditioner. The molecules, when activated by heat (movement and temperature), will make the metal surface smoother and harder. Not only is their restorative and preservation (life extension) value in this, but bullets come out of the barrel with much more consistency, as seen in chronograph tests.

The big benefit is improved accuracy. The shooter may miss, but his or her firearm (machine) is going to operate with more precision; and who is not proud and excited about tighter shot groups? When you have hard core military snipers becoming full-in believers, and we have lots of them, it confirms the science in “real world” terms!

Besides possible life-saving improved accuracy, the other BIG benefits include: immediate smoother operation, reliable performance in all environments, far fewer malfunctions, shoot 2-8X more rounds between cleanings with dramatically less time spent cleaning and extended (and in many cases, restored) barrel life.

One of my favorite testimonials is from Mitch Fedoruk a 20-year Army sniper instructor, military

Cont. on page 6- Spartan

consultant and small arms manufacturer CEO. He said, "I have never used or even heard of products like these. MSS is so advanced that it will change the industry!"

If you want to learn more about MSS feel free to go to our website to see demo videos, testing reports and testimonials. You can also call us, but the best way to

learn how powerful the technologies are is to go to the NFC online store and use the discount code NVFAC10 and try the products yourself.

American Rifleman's "Gun of the Week" made in Pahrump

Nevada SHOT Show Exhibitor

Rock Island Armory's 1911 Tactical II pistol was named "Gun of the Week" in April by the NRA's American Rifleman magazine, which tested the pistol in its May 2014 issue. Rock Island Armory, the sole producer of firearms in the Armscor family, is headquartered in Pahrump. Rock Island Armory produces a full line of pistols, a couple revolvers and shotguns, as well as several semi-auto and bolt rifle designs. Several new models are now being offered and a hush-hush sub-compact 1911 - style design in 380 Auto is in the works. This all metal pocket pistol will resemble a "shrunk 1911", presumably with the exception of the trigger and trigger guard.

From its humble beginnings in 1905 in the Philippines as Squires, Bingham & Company, Armscor Precision International opened its US office in Pahrump in 1985. Armscor USA is the official ammunition producer of the family-owned company, including the new and

unique 22 TCM cartridge that generates over 2,000 fps with a 40 grain bullet from a 5-inch pistol barrel. That equals the 22 magnum from a rifle. The Target model even comes with a 9mm conversion kit. The July/August 2014 issue of the American Handgunner magazine features the 22 TCM cartridge.

Armscor USA is headquartered in Las Vegas and has production facilities in Montana. Today Armscor USA exports its ammunition to over 50 countries on 6 continents. The company even has a popular 6 episode

video series "On the Range" starring Mike Seeklander, cohost of "Rapid Fire", who has also appeared on the History Channel's "Top Shot" series. The latest episodes of "On the Range" can be

seen on the Armscor YouTube channel. For more information on these two unique family businesses, visit www.armscor.com and www.rockislandarmory.com. Armscor USA and Rock Island Armory are the newest corporate members of NVFAC.

E-mail Survey

You recently received a very important survey by e-mail. It contains questions on both The Firing Line and on the Nevada Firearms Coalition's value to its members. If you have not already done so, please submit your completed survey right away! It will help us improve our services to you and the more responses we receive, the higher our level of confidence will be in the results. Thank you.

Don Turner, President
